Dale Medical Products

Tracheostomy Tube Holders

Additional Indications of Use - Oxygen Cannula

Securement of Oxygen Cannula Tubes

Top of Head

1. With oxygen cannula in place on patient, unfold the holder and place over top of patient's head, and slightly behind ears.
2. Open tabs at end.
3. Place cannula onto device and secure with narrow fastener tabs.
4. Adjust for proper length.
5. Trim excess material (if needed).

Back of Neck

1. With oxygen cannula in place on patient, unfold the holder and center it around back of patient's neck.
2. Open tabs at end.
3. Place cannula onto device and secure with narrow fastener tabs.
4. Adjust for proper length.
5. Trim excess material (if needed).

For single patient use. Disposable.
